AGES, INCLUSIVE AND EXCLUSIVE OF CHINESE.

TABLE VII.—Showing (exclusive of Maoris) the Number of Persons, Males and Females, living at each Year of Age, according to the Census taken on the 31st March, 1901.

[NOTE.—*The figures here given are the numbers at each year of age; compiled from the entries on the census schedules as made by the householders themselves. A glance at the table will show that many people, either through ignorance, carelessness, or disregard of truth and accuracy, have set down their ages as at the nearest decennial or quinquennial period (30, 35, 40, &c). To ascertain the true number living at each year of age, the total numbers in each quinquennial or decennial group should be distributed proportionately over the single years.*]

PART VII.—SICKNESS AND INFIRMITY.

SICKNESS AND INFIRMITY.—NUMBERS AT QUINQUENNIAL AGE-PERIODS.

TABLE I.—Showing (exclusive of Maoris) the Numbers at Quinquennial Age-periods of Persons, Males and Females, returned as Sick or suffering from Accident; and of those stated to be Deaf-and-dumb, Blind, Lunatic, Idiotic, Epileptic, Paralytic, Crippled and Deformed, suffering from Debility, and Deaf, on the 31st March, 1901.

NOTE.—For those under 15 years the numbers cannot be entirely trusted, because the instruction on the census schedules was that, "*if unable to follow usual occupation* by reason of illness or accident," the word "Sick" or "Accident" was to be entered.

VII.	INDEFINITE.—Embracing all persons who derive incomes from services rendered, but the direction of which services cannot be exactly determined	..	20	64	234	648	1,001	2,931	15	4,913	3	5	41	206	538	677	1,145	7	2,622	7,535

* In the Professional Class are included persons returned as "Government officers"; but the figures given under this heading do not represent the full number employed by Government, the principle adopted having been to complete other groups where the scheme of classification required it, rather than to show the total number paid by Government. Thus, Postal and Telegraph officers are classified under "Transport and Communication," in Class IV. Railway employees are similarly dealt with. The full statement of persons paid by Government but not included in Order 1 would comprise some or all of the following: Persons connected with charitable or benevolent institutions, hospitals and lunatic asylums, museums, education, life insurance, railways, harbours, lighthouses, post and telegraph and mines, also civil engineers, electricians, surveyors and assistants, architects and draughtsmen, printers and binders in the Government Printing Office, and artisans in Government Railway workshops.

OCCUPATIONS.—DETAILS.

TABLE IX.—Showing (exclusive of Maoris) the Occupations of the People as on the 31st March, 1901.

NOTE.—The occupations as returned on the census schedules by householders have been strictly adhered to in compiling this table.

The figures given under the heading "Officer of Government Department" do not represent the full number employed by the Government, the principle adopted having been to complete other groups, where the scheme of classification required it, rather than to show the total number paid by Government; thus, Postal and Telegraph officers are classified under "Transport and Communication," in Class IV. Railway employees are similarly dealt with.

The full statement of persons paid by Government, but not included in Order I., would comprise some or all of the following: Persons connected with charitable or benevolent institutions, hospitals and lunatic asylums, museums, education, life insurance, railways, harbours, lighthouses, post and telegraph and mines; also civil engineers, electricians, surveyors and assistants, architects and draughtsmen, printers and binders in the Government Printing Office, and artisans in Government Railway Workshops,

The numbers in the "Commercial" and "Industrial" classes include all persons whose occupations were sufficiently defined to admit of their being classified under the special branch of industry, &c., in which they were engaged. Many—chiefly those whose employment was of the nature of unskilled assistance—in giving their occupation did not state the particular industry they were connected with. These, necessarily, are not given as employed in any special industry. Those engaged as agents or assistants in any occupation belonging to Class III. to VII. have been, generally speaking, included with the principals. All persons returned as both producers and dealers have been classed as *producers* only, under Class VI. All persons stated to be both manufacturers and dealers have been grouped as *makers*, under Class V. Persons out of employment are included under their ordinary or former occupation. (For details of unemployed see Table XIV.)

Inmates of hospitals, asylums, industrial schools, and refuges, &c., have not been classed according to their former occupations, but in Class VIII., Dependents.

N.B.—Before the figures set opposite any particular occupation are made use of reference to note at foot of the page is absolutely necessary. (For employers and employed see Table XIV.)

* The populations in 1896 and 1901 are the numbers ascertained for each provincial district by the census of the colony taken in March and April of those years. † The figures up to 1895 inclusive are from returns made to the Registrar-General under the Census Act. No account of holdings was taken for 1896. The figures given for 1897, 1898, 1899, 1900, and 1901 are those returned by the Department of Agriculture.

TABLE III.—Showing, for each Provincial District of New Zealand, the Population for each Year, the Occupied and Cultivated Holdings, with the Total Area in Cultivation, and the Number of Acres under each Description of Crop, according to Returns collected in the Years 1892 to 1901—*continued.*

* The populations in 1896 and 1901 are the numbers ascertained for each provincial district by the census of the colony taken in those years. † The figures up to 1895 inclusive are from returns made to the Registrar General under the Census Act. No account of holdings was taken for 1896. The figures given for 1897, 1898, 1899, 1900, and 1901 are those returned by the Department of Agriculture. ‡ This does not include tussock or native-grass and other unimproved land, of which 21,516,744 acres were returned in 1896-97, 22,452,083 in 1897-98, 22,314,553 in 1898-99, 21,857,909 in 1899-1900, and 22,182,956 in 1900-1901.

NOTE.—In the returns of agricultural statistics as above summarised up to 1895, gardens and orchards attached to residences, plantations of forest trees, holdings of one acre or less in extent, and holdings occupied by aboriginal natives are not included.
